PROFESSIONAL SUMMARY

Fourth-year Information Technology student at Far Eastern University (FEU) Alabang, specializing in Web and Mobile Applications. Builds web and mobile apps from research and wireframes to a deployed backend, with hands-on work in full-stack development, system design, UI/UX design and machine learning. Looking for a frontend or full-stack internship.

EXPERIENCE

UI/UX Designer and Gameplay Scripter, CoreStudio (Roblox) ***(Freelance, 2026)***

- Designed the game's UI/UX and wrote gameplay scripts in Luau
- Built a modular, server-authoritative anti-exploit system with an admin dashboard, saved bans, Discord webhook alerts, and a strike system that kicks and then bans repeat offenders

Server Admin and Plugin Developer, BattleAsya Minecraft Server ***(Part-time, 2019 - 2022)***

- Helped run a server with about 14,000 players and up to 5,000 online at once
- Built custom Java plugins on the Spigot API, including a report and ticket system that opens Discord ticket channels through a JDA and DiscordSRV bot; the server still uses it today

ACCOMPLISHED PROJECTS

Baylo — Capstone Web Developer, Researcher

- Built the web platform and backend of a barter web and mobile app on my own (React, TypeScript, Tailwind, FastAPI, PostgreSQL, Firebase, Gemini API), while three teammates built the mobile app
- Led the ISO/IEC 25010 evaluation, where 100 respondents rated the platform 4.89/5

Lakbay Lokal — Solo Full-Stack Developer (in progress)

- A trip planner for the Philippines I'm building, with a working version online, that builds a timed day of local stops from about 220 real places (Python, FastAPI, SQLite, Gemini API, Leaflet)

Wildwood — Game and Web Developer

- A cozy 3D browser game where players earn an animal's trust instead of catching it, then farm by day and defend against wolf raids at night (three.js)
- Built its website so players get the feel of the game before they press Play, with a 3D forest scene, field guide and world map (three.js, GSAP)

SKILLS

- **Languages:** Python, TypeScript, JavaScript, Java, Kotlin
- **Frontend:** React, Vue, Nuxt, Tailwind, three.js, GSAP
- **Backend & Data:** FastAPI, Node.js, Firebase, PostgreSQL, SQLite
- **AI & Machine Learning:** Gemini API, TensorFlow, OpenCV
- **Cloud & Tools:** Docker, Google Cloud Run, Render, Git, Linux, Android Studio, Figma
- **Soft Skills:** Time Management, Attention to Detail, Teamwork and Collaboration

EDUCATION

Bachelor of Science in Information Technology ***(Expected graduation: September 2027)***
Far Eastern University – Alabang

- Specialization in Web and Mobile Applications

STEM Strand | Senior High School ***(2021 - 2023)***
Colegio de San Juan de Letran – Calamba
